

Tic-Tac-Terrific

Character Traits

Suggested way to play:

1. Divide participants into two teams. (X and O)
2. Have students determine who will go first.
(My students like to play rock/paper/scissors.)
3. The first player clicks on the square they would like to have control of
4. A question will appear and the student will answer with/without the advice of their team members. - (applauds if correct, bomb sound if wrong)
5. After answering, click on the pencil to return to game board.

6. If the player's answer was correct, the appropriate letter for their team is chosen. If the player's answer was incorrect, the letter for the opposite team is chosen.
7. Control of the game now goes to the opposite team.
8. The team that gets three in a row wins. In case of a draw, the team with the most squares wins.
